10 All Pupils - INWED

Today's video to celebrate INWED features Civil Engineer Avery Bang, Mechanical Engineer Angelica Hernandez and Civil Engineer Menzer Pehlivan and the projects they have been involved with. Thanks for taking part in INWED by showing and watching these short video clips. I hope they have showcased the range or opportunities available in engineering. INWED was initiated by WES - Women's Engineering Society - who work to encourage more gender diversity in Engineering. They have further information on their website to help you explore engineering and welcome supporters from all genders - Not just for girls!

Groups Tutors - you can find the video on the link sent out in a Glow email
