

Dependent Groups: Elderly Homework

Question 1 (L3)

Elderly people have a number of health needs.

Describe **two** needs that elderly people may have.

(4 marks, Knowledge)

Question 2 (L3)

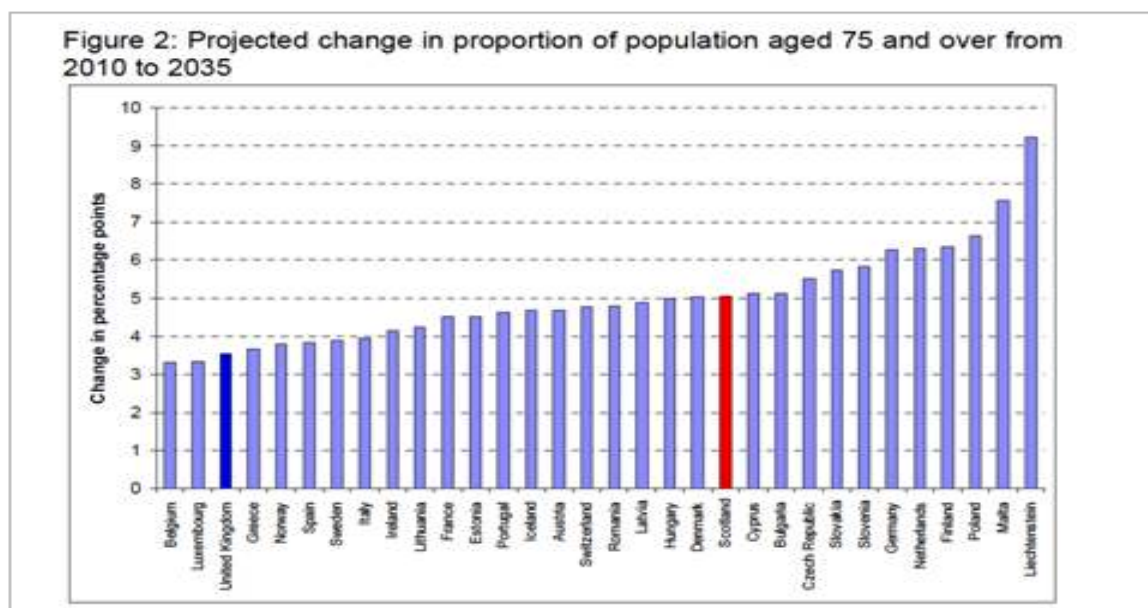

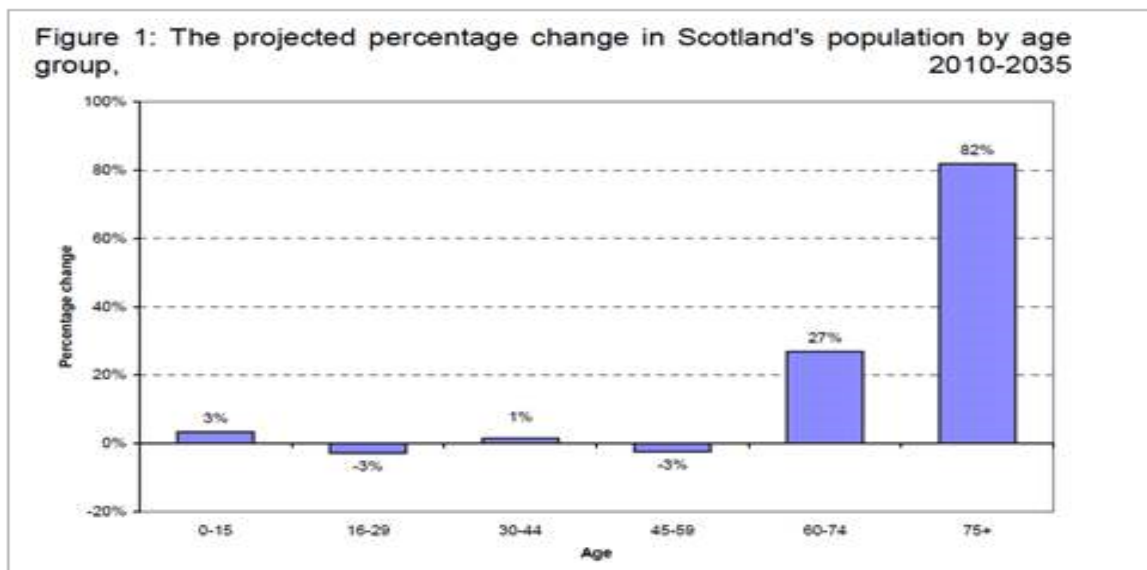

There are more elderly people in Scotland as people are living longer.

Explain **two** reasons why people in Scotland are living longer.

(4 marks, Knowledge)

Question 3 (L3)

Study the information in the graphs below then answer the question which follows.

In the future, Scotland will see a bigger rise in the number of elderly people than the UK as a whole. The biggest increase in population will be in the 60-74 year age group.

Alice Habbet

Using **only** the information in the graphs above, give **one** piece of information to **support** what is said by Alice and **one** piece of information to **oppose** what is said by Alice.

(4 marks, Skills)

Dependent Groups: Elderly Homework

Question 1 (L4)

Elderly people have a number of health needs.

Describe the **health needs** that elderly people may have.

(6 marks, Knowledge)

Question 2 (L4)

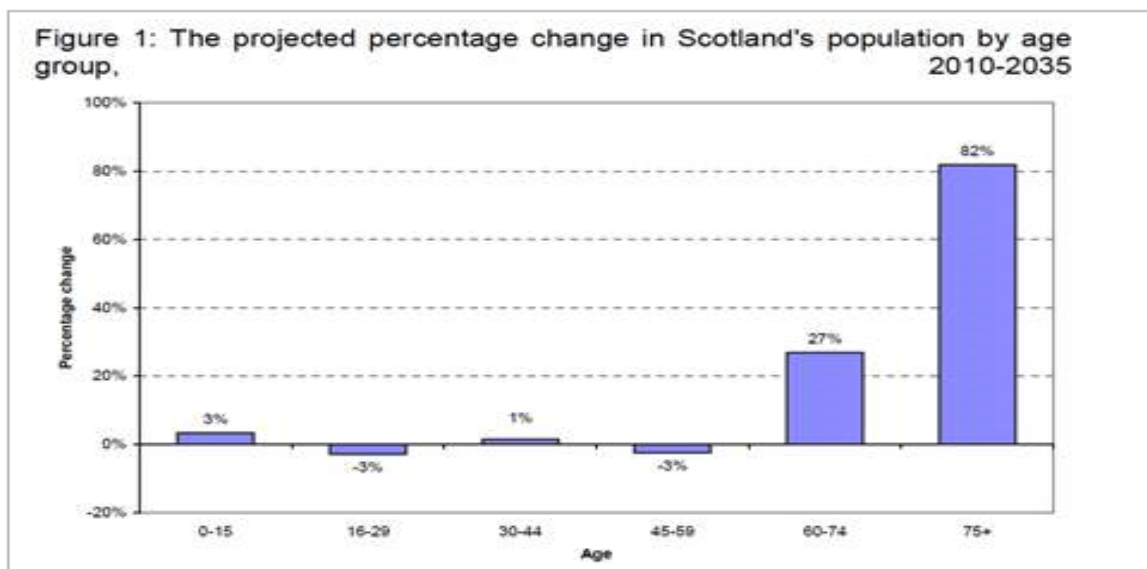

There are more elderly people in Scotland as people are living longer.

Explain the reasons why people in Scotland are living longer.

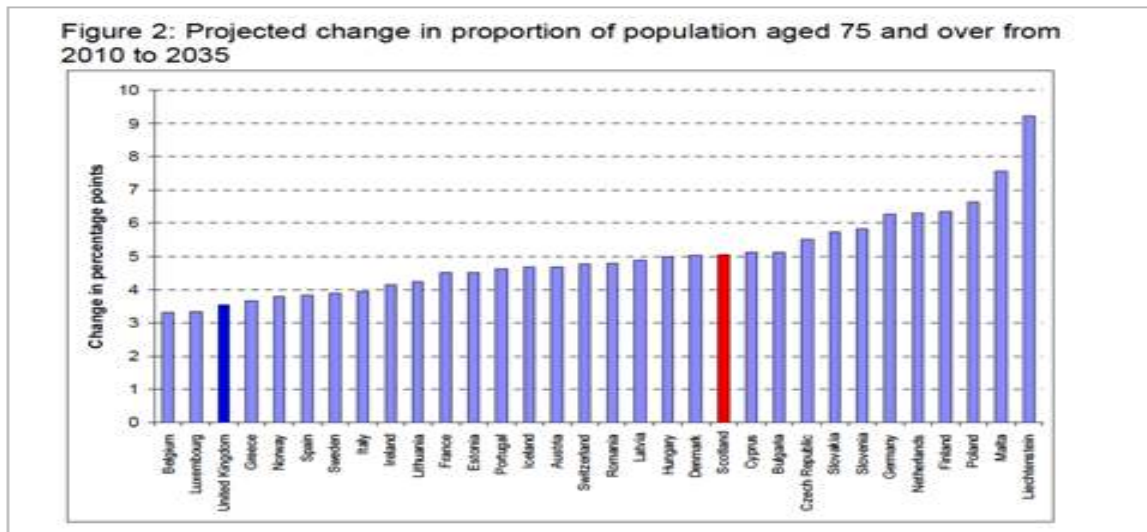

(6 marks, Knowledge)

Question 3 (L4)

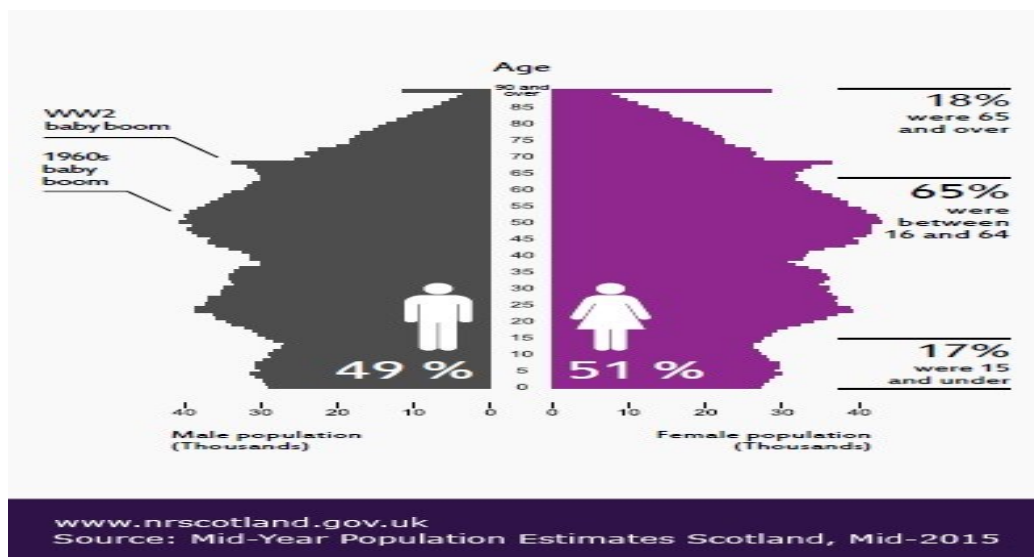

Source 1 - Projected change in Scotland's population by age group in percentage (%) 2010-2035

Source 2 - Projected change in Scotland's population aged over 75 years in percentage (%) compared to other European countries

Source 3 - Scotland's population in thousands (000s) by age (years) and gender (male/female)

Using **only** the information in Sources 1, 2 and 3, what **conclusions** can be made about:

- The population age group projected to rise most quickly in the future
- The number of people aged 75 years and over in Scotland compared to other European countries
- The percentage of men compared to women in Scotland's population

(Skills, 6 marks)
